

# Animal Characteristics

Inspired by "Wolves" by Sierra Marston

Every animal is unique, and they each have their own characteristics that distinguish them from other animals. Think of your favorite animal to describe its day to day activities.

"Wolves" by Sierra Marston

Wolves howling towards the moon

Gray and dark

Sitting on a rock

Snow falling all around

Pine trees swaying

green and white

Soft like a feather

Goes to sleep

Wakes up in the snow

Covered in a blanket

Joins the rest of the pack

to get the kill for breakfast

And again for the next day and the

next
